

You're Invited

to the 2024 Summit Learning Lab VIP Experience.

We are now ready to take reservations for the KCF Lab Experience! This is an a la carte option, not on the agenda, but intended for VIPs who would get the most value out of participating.

June 12, 2024 • State College, PA

2024 Summit Learning Lab VIP Experience

When and Where:

June 12, 2024
KCF Technologies Fraser St. Office

Session #1: 8:00 A.M. **Session #2:** 9:30 A.M.

What to Expect:

In this interactive session you'll experience: Best practices for setting up your SMARTdiagnostics software to measure and improve machine health, ways to quickly identify and eliminate machine faults in your plant, and a sneak peek at the latest hardware and software tools from KCF Technologies to expand your comprehensive machine health platform.

How to Register:

When registering for this year's summit, click the check box indicating interest in attending this year's learning lab. A member of our team will follow-up to confirm interest and to help you determine which session will be right for you.

If you have already registered for the 2024 Summit and would like to attend, please email sean.buda@kcftech.com to reserve your spot.

Please Note:

Registrations for the 2024 Summit Learning Lab Experience are first come, first serve. Sign up now to secure your spot and continue your machine health learning journey!

***To attend the Learning Lab experience, registration to the Manufacturing the Future summit is required.**
